Professional Summary my-portfolio-3ibj-pi.vercel.app

Entry-Level Frontend Developer with hands-on experience building responsive web applications using HTML, CSS, JavaScript, React.js, and Tailwind CSS. Experienced in developing interactive projects such as an Expense Tracker and To-Do List application featuring CRUD functionality, dynamic UI updates, and React state management using hooks. Also completed a production internship involving quality inspection, data recording, and team collaboration. Passionate about writing clean, maintainable code and continuously improving in modern frontend development.

Skills

Web Development: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Responsive Design, Component-Based Development, React Hooks, State Management.

API & Data: REST API Integration, JSON, CRUD Operations, MySQL, SQL.

Programming Languages: C++ (Basic)

Tools: Git, GitHub, Visual Studio Code, Vercel, XAMPP, MySQL Command Line.

Other: Microsoft Excel

Experience

Toyota Aisin Philippines(Internship)

March 2025 - August 2025

- Inspected and evaluated products against strict quality standards, ensuring compliance with company requirements
- Recorded and analyzed production data to identify patterns, discrepancies, and improvement opportunities
- Collaborated with production teams to support workflow efficiency and quality assurance standards

Projects

Expense Tracker App - React.js | JavaScript | Tailwind CSS

- Built a responsive expense tracking application with features to add, edit, delete, and categorize transactions.
- Implemented React state management for real-time balance updates and dynamic UI rendering.

To-Do List App - React.js | JavaScript | Tailwind CSS

- Developed a task management application with add, edit, complete, and delete functionality.
- Used React hooks and component-based architecture for efficient state management and rendering.

• Weather App — React.js | JavaScript | Tailwind CSS | REST API

- Built a weather application that fetches and displays real-time weather data using API integration.
- Implemented data handling and dynamic UI updates based on user input.

Education

Technological University of the Philippines

- Bachelor of Engineering Technology Major in Computer Engineering Technology -
- 2021 - 2025
